

The CHP CAMaffinity Program

Using the CHP CAMaffinity program, employees can receive a 20% discount on complementary and alternative medicine (CAM) services from our network of providers throughout the Northwest. By using this program, they can be sure that they see the best CAM providers in the area while enjoying an appreciable savings on the services provided.

Once enrolled in the program, employees simply visit www.chpgroup.com and use the "Find a Provider" link on the home page to access a complete list of CAMaffinity providers by discipline, location, and more.

When employees make an appointment, they will mention they are a CAMaffinity member to receive the 20% discount off of providers' usual and customary fees for services. At the appointment, they will show the appropriate ID card to confirm their discount eligibility.

What is complementary and alternative medicine?

Complementary and alternative medicine (CAM) is a group of diverse health care systems, practices, and products that are not generally considered to be part of conventional medicine. The CHP CAMaffinity Program includes:

Chiropractic | Manual manipulation of the spine or other parts of the body; a non-invasive therapy that focuses on reducing pain and improving the function and structure of the body.

Naturopathic Medicine | Uses a wide range of natural approaches, such as clinical nutrition, herbal medicine, and homeopathy to diagnose and treat patients.

Massage Therapy | Involves the manipulation of the soft tissue structures of the body to help prevent and alleviate pain, muscle discomfort, muscle spasms, and stress.

Acupuncture | Is the stimulation of specific points on the body by the insertion of thin metal needles through the skin. Patients rely on acupuncture treatments to relieve pain and reduce inflammation.
