

The CHP CAMplus Program

CAMplus offers wide-ranging discounts on both complementary and alternative medicine (CAM) services and healthy-living activities. This program is a great way for employees to take an active role in their health care treatment options and to participate in wellness-related activities with significant discounts.

CHP will provide your HR Department with enrollment forms/spreadsheets. Payment for the CHP CAMplus Program is usually by payroll deduction. Once enrolled, employees receive a CAMplus ID card with instructions for accessing discounts.

Discounts on complementary and alternative medicine (CAM)

CAMplus members receive a 20% discount on CAM services - including chiropractic care, naturopathic medicine, acupuncture, and massage therapy - from our network providers. Our online provider directory makes it easy to access CAM services.

By using this program, employees can be sure that they are seeing only the best CAM providers in the area while enjoying an appreciable savings on the services provided.

Discounts on healthy and fun activities

CAMplus members have access to great discounts on healthy and fun activities through The CHP Active and Healthy Program. This popular program is designed to get people moving! Our web-driven program's "print and save" model makes it hassle-free and easy for employees to have access to thousands of options for healthy living and wellness-related fun. The program offers discounted access to a wide variety of activity categories including gyms and health clubs, yoga and pilates, movie tickets, travel, weight management, sporting events, and lift tickets.
